[GitHub](#) [LinkedIn](#)

Computer Science fresher with strong hands-on experience in full-stack development, databases, and DevOps fundamentals. Built real-world projects from scratch and contributed to open source. Seeking my first internship or entry-level role to apply strong fundamentals and grow as a software engineer.

• PROJECTS

Dev Event Platform

- Technologies: Next.js, TypeScript, MongoDB, Tailwind CSS
- Built a full-stack event management platform for discovering, creating, and managing developer events. Implemented event registration workflows, image uploads, and responsive user interfaces while designing backend APIs and database models to efficiently handle event data and user interactions.

[Repository](#) | [Demo](#)

Building My Own GitHub

- Technologies: JavaScript, Authentication, Repository Management
- Building a GitHub-inspired platform from scratch with repository management, authentication, and developer-focused workflows. Implementing core version-control concepts and backend functionality to gain a deeper understanding of collaborative software development platforms and system design principles.

[Repository](#) | [Demo](#)

Subscription Tracker

- Technologies: Node.js, Express.js, MongoDB, JWT, Nodemailer, Upstash QStash
- Developed a subscription management system with secure JWT-based authentication and automated email renewal reminders. Built RESTful APIs, integrated background job processing, and focused on creating scalable backend architecture while following modern security practices.

[Repository](#)

Real-Time Tracker

- Technologies: Node.js, Express.js, Socket.io, Leaflet.js
- Built a real-time location tracking application with live multi-user tracking support. Implemented WebSocket-based communication for instant location synchronization and integrated interactive map visualizations using Leaflet.js and browser geolocation APIs.

EDUCATION

**Ajeenkya DY Patil
University (ADYPU), Pune**

B.Tech – Computer
Science / Information
Technology
2025 - 2029

ADDITIONAL

A quick learner with a growth mindset, comfortable adapting to new technologies and improving through hands-on experience.

TECHNICAL SKILLS

- Frontend: HTML, CSS, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, GSAP
- Backend: Node.js, Express.js, REST APIs
- Databases: PostgreSQL, SQL, MongoDB, SQLite
- Programming Languages: JavaScript, C, C++, Java (basic)
- Tools: Git, GitHub, VS Code, npm, macOS/Linux Terminal
